# Default Settings

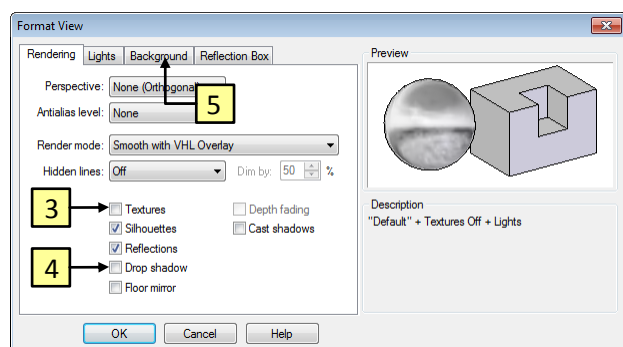

To explain the content of this book, there are used screenshots. There are a few Default Settings by making the screenshots. To get the same results, as shown, we recommended using these setting.

## View overrides options

The 'View overrides options' applies overrides to the active view style. Here you can change settings for 'Rendering', 'Lights', the 'Background' and the 'Reflection Box'.

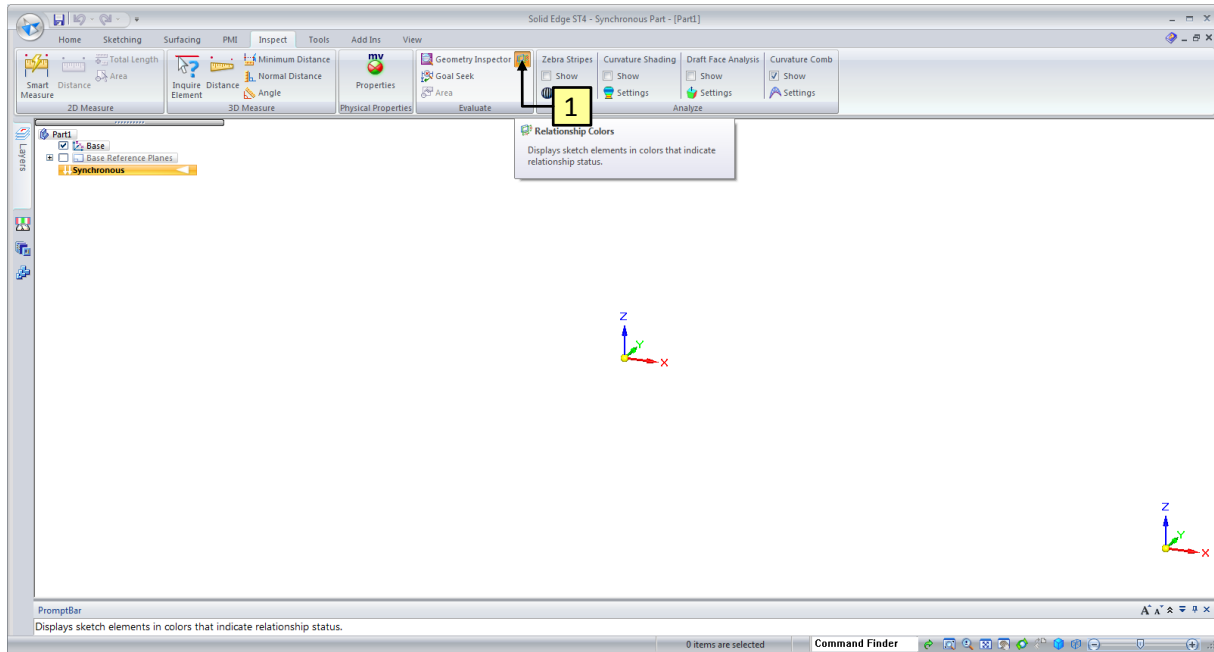

1. Click on the **View** tab in the ISO part environment;
2. Click on **View Overrides**;
3. Turn off the **Textures**;
4. Turn off the **Drop shadow**;
5. Go to the **Background** Tab and make the Type: **Solid Edge Default**.

## Relationship Colors

The 'Relationship Colors' displays sketch elements in colors that indicate relationship status.

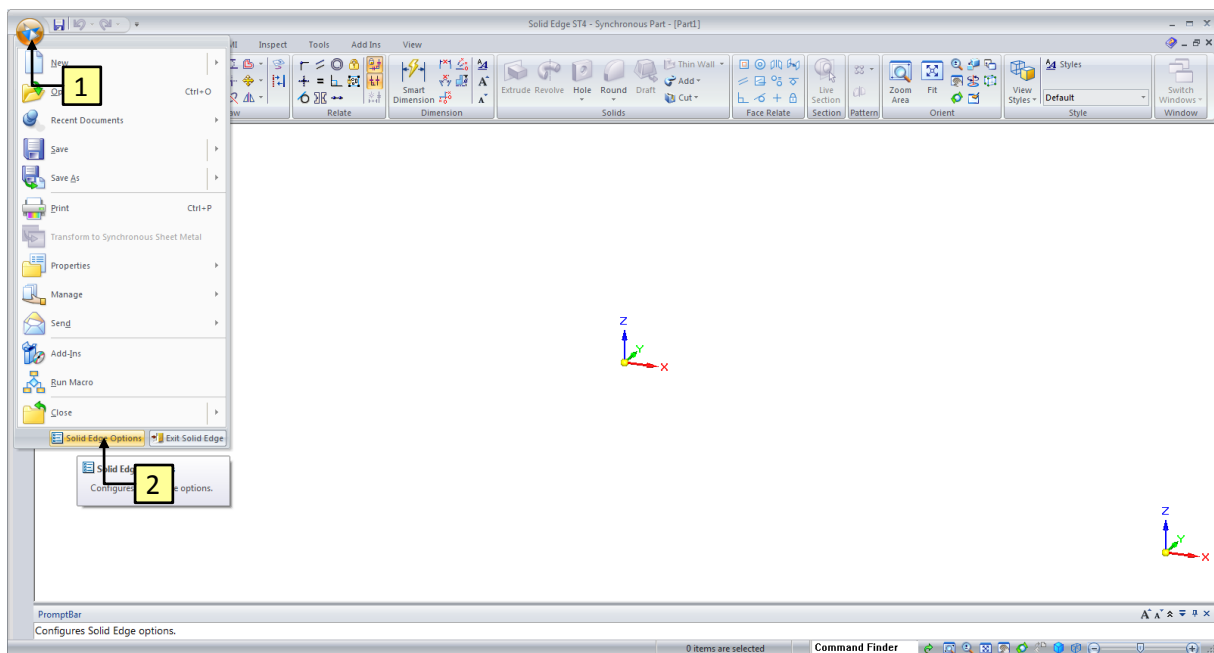

1. Make sure the **Relationship Colors** button is on.

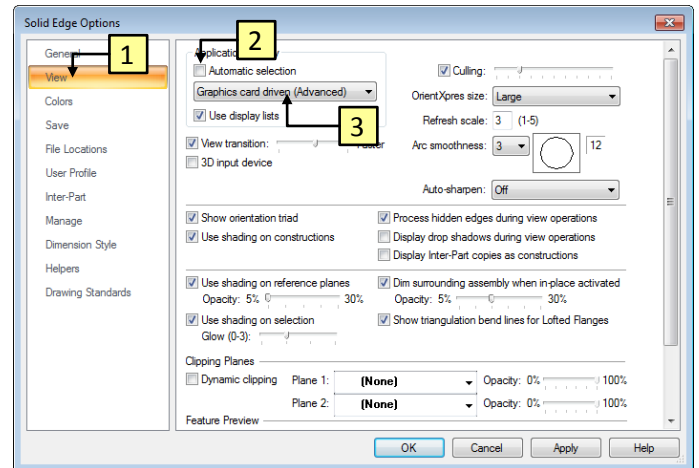

## Solid Edge Options

In the 'Solid Edge Options' you can configure the options for Solid Edge.

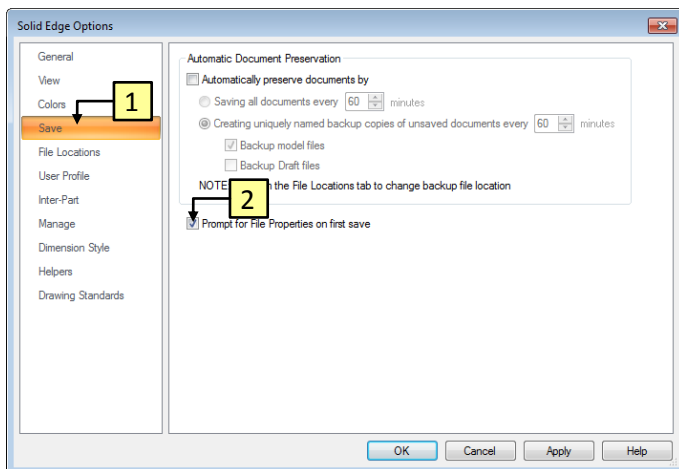

1. Click the **Application Button**;
2. Click the **Solid Edge Options** button.

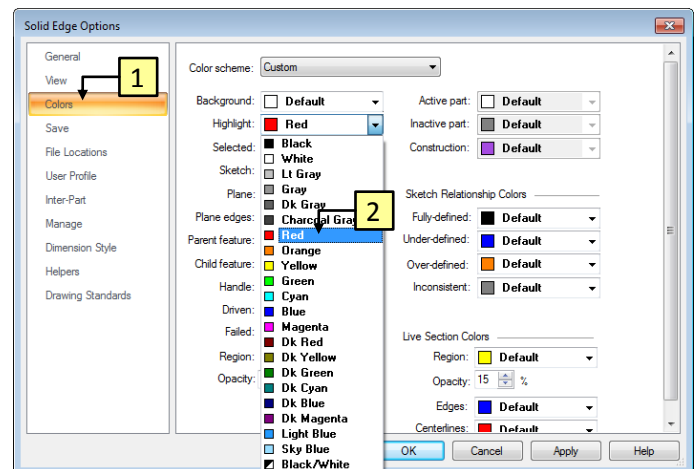

1. Go to the **View** tab;
2. Turn the **Automatic selection** off;
3. Select the **Graphics card driven (Advanced)** option.

1. Click on the **Save** tab;
2. Turn on the **Prompt for File Properties in first save** option.

1. Click on the **Colors** tab;
2. Select the color **Red** at the 'Highlight' option.
